A place for stretch mark and scar management – building aftercare into patient consultations

**Katrina Ashton**, Specialist Midwife Antenatal and Postnatal Mental Health Medway Maritime Hospital; **RN RM Psychoanalytic Psychotherapist** and
**Natalia Wieclaw**, UK’s Training and Congress Manager, Bio-Oil UK

In partnership with **Bio Oil**

Join us for this interactive session to explore the role of compassionate care in managing the psychological impact of stretch marks and scarring, and strategies for addressing stretch mark and scar management with patients. Along with practical information about how stretch marks and scars develop, including the different types, patient risk factors, and the healing and maturation process.

Through attendance, you will also receive printed resources and training opportunities to help you further develop your skills.

Learning outcomes:

- To better understand the needs of patients with stretch marks and scarring
- To build confidence in discussing stretch marks and scarring with patients and advising on different treatment options
- To empower and support patients to self-care
